# STATISTIKA AUTOMOBILOVÉHO PRŮMYSLU ČESKÉ REPUBLIKY

Souhrn statistických údajů o výrobě, prodeji, dovozech a registracích vozidel tvoří jeden ze základních informačních zdrojů pro charakteristiku tak důležitého odvětví hospodářství, jakým je bezesporu automobilový průmysl každé vyspělé země. Tato statistická publikace navazuje na předchozích čtrnáct vydání "Statistiky automobilového průmyslu" vydávané každoročně Sdružením automobilového průmyslu. Její první vydání (květen 1991) podchycuje základní údaje za období od roku 1985 do roku 1990. V každém dalším, tedy i v tomto vydání, jsou pak vždy uvedeny údaje za ukončený rok a předcházející 4 roky.

K datu 1. 1. 1993 došlo k rozdělení Československa na dva samostatné státy - Českou republiku a Slovenskou republiku.

Výroba motorových vozidel má na území bývalého Československa počátek již v roce 1898. Od tohoto data do konce roku 1945 zde bylo vyrobeno 154 898 osobních automobilů, 56 707 nákladních vozidel a 2 349 autobusů.

Vývoj výroby od roku 1946 do konce roku 1992 (v rámci Československa) je znázorněn v prvním grafu této publikace. Za uvedené období bylo v bývalém Československu vyrobeno 5 065 496 ks osobních automobilů (včetně užitkových kat. N1), 1 228 846 ks nákladních vozidel, 87 563 ks autobusů a 7 300 620 ks motocyklů a mopedů.

V následujícím období let 1993 až 2008 bylo jen v České republice vyrobeno 7 333 806 ks osobních automobilů, 222 167 ks užitkových vozidel kat. N1, 68 017 ks nákladních vozidel (včetně tahačů), 28 133 ks autobusů a 86 080 ks motocyklů (včetně mopedů).

Další graf pak znázorňuje vývoj počtu registrovaných vozidel v ČR od roku 1950 do 31. 12. 2008.

## AUTOMOTIVE INDUSTRY STATISTICS OF THE CZECH REPUBLIC

A summary of statistical data on vehicle production, sales, imports and registrations is one of the principal information sources to characterize such an important branch of the national economy as the automotive industry really is. This statistical publication follows the fourteen previous editions of „Automotive Industry Statistics“ issued yearly by the Automotive Industry Association. Its first edition (May 1991) comprises basic data for 1985 - 1990. In the each following edition, including this one, there are data presented for the year concerned and four preceding years.

On the 1<sup>st</sup> of January 1993 Czechoslovakia divided into two independent states - the Czech Republic (CR) and the Slovak Republic (SR).

The motor vehicle production on the territory of the former Czechoslovakia started already in 1898. In the period 1898 - 1945 incl. there were produced 154 898 passenger cars, 56 707 trucks and 2 349 buses.

The first graph of this publication shows the production development in the period 1946 - 1992 incl. (together CR + SR). In the period mentioned there were manufactured in the former Czechoslovakia 5 065 496 passenger cars (including commercial vehicles ECE Cat. N1), 1 228 846 trucks, 87 563 buses and 7 300 620 motorcycles and mopeds.

In the following period 1993 - 2008 in the Czech Republic only there were produced 7 333 806 passenger cars, 222 167 commercial vehicles Cat. N1, 68 017 trucks (including road tractors), 28 133 buses and 86 080 motorcycles including mopeds.

The second graph describes the vehicle parc development in the Czech Republic from 1950 till the 31<sup>st</sup> December 2008.

### **3. STRUKTURA PRVNÍCH REGISTRACÍ PODLE KATEGORIÍ 2008**

Tato kapitola obsahuje k datu zpracování dostupné údaje o prvních registracích jednotlivých kategorií vozidel v České republice.

Základním zdrojem dat jsou údaje z Centrálního registru vozidel (CRV) Ministerstva dopravy České republiky. Tato data jsou zpřesněna, opravena a zaříděna do kategorií na základě informací od jednotlivých dovozců a prodejců vozidel. Z tohoto důvodu se tato data mohou lišit od zdrojových neočištěných dat CRV o celkových prvních registracích uváděných v kapitole 5.

### **3. NEW REGISTRATIONS STRUCTURE BY CATEGORIES 2008**

This Chapter contains processed available data of different vehicle categories and their registrations in the Czech Republic.

Basic data source are data from the Central Register of Vehicles (CRV) of the Czech Ministry of Transport. These data are specified, corrected and classified into categories based on information from importers and dealers of the vehicles. For this reason these data can be different from basic total first registration data included in chapter 5.

## **4. REGISTRACE VOZIDEL 2004 - 2008**

Zdrojem dat jsou údaje z Centrálního registru vozidel (CRV) Ministerstva dopravy České republiky. Struktura odpovídá klasifikaci EHK, nemá však další podrobnější členění podle výrobních značek, typů, modelů atd.

Data z CRV sice umožňují provádět členění podle výrobních značek, typů, modelů atd., tento materiál toto členění ale neobsahuje. Podrobnější rozbory v oblasti registrací vozidel shrnuje samostatný materiál „SLOŽENÍ VOZOVÉHO PARKU V ČR“, který vydává Sdružení AP pololetně od roku 1997. Jeho poslední vydání (Praha, únor 2009) zachycuje stav k 31.12.2008.

## **4. REGISTRATIONS AND VEHICLES IN USE (PARC) 2004 - 2008**

The data source is the Central Register of Vehicles (CRV) of the Czech Ministry of Transport. The structure complies with the ECE classification but the data are not broken down by makes, models, types etc.

The CRV data enable to make analyses by makes, models, types etc. however it is not presented in this publication. The more detailed analyses in the field of vehicle registrations are published in the separate publication „VEHICLE PARC STRUCTURE - CZECH REPUBLIC“ that is edited by AIA twice a year since 1997. The latest edition (Praha, February 2009) describes the situation as to December 31, 2008.
